

Dear Neighbors,

**Take a look at our new website.**

The Forest Hills Metro District is happy to announce the launch of a new website. It was developed with the objective of being more transparent, easier for homeowners to find current information, and easier to communicate with the District. It has a simpler design with easy to navigate pages for the District's management and plans, water and sewer billing and systems, as well as roads, gates, park, and other amenities. The new website also has a page focused on helping new residents become acquainted with the District. It now includes the ability to request assistance for a variety of issues using online forms to assure a timely response.

This new website is the product of a team of people on your Board, in Management, vendors, and fellow homeowners. We would like to recognize your neighbor Roz Birkelo's contribution, who designed a new attractive District logo that captures the essence of our charter.

We welcome you to take a look at [www.fhmd.net](http://www.fhmd.net) and let us know what you think using the General Inquiry feedback form.

Sincerely,

Ronda Zivalich  
District Manager
